

## Clark Forklift Attachment

Clark Forklift Attachments - Performing worldwide, there are now 350,000 Clark forklifts and lift vehicles in operation, with more than 250,000 of those in service in North America. Clark has five major lines of lift trucks across the globe, making it one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, handles more than 120,000 specific items intended for 20 distinctive models of forklifts and automated equipment. Your regional Clark Dealer is your total source for availability of all your parts needs offered by Clark Totalift.

Clark features a exceptional Parts Supply team. The parts warehouses are conveniently located in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Driven to supply the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to enhancing productivity and benefiting performance.

Worldwide, Clark has one of the most outstanding dealer support networks. With over 550 locations worldwide, dealer representation in over 80 countries and 230 locations in North America, their high level of dedication to their clients predominates the material handling market.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of innovation in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is at this time a standard feature on every lift truck.

Clark's recurrent goal to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck producer across the world to be certified with the internationally approved quality standard ISO 9001 for every one of their production plants. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any environmental restrictions, thus placing them in a prevailing market position.

Clark has preferred the particularly economical and beneficial system of "Lean Manufacturing" for its assembly plants and application of resources. This system was developed to acknowledge the most effective method of manufacturing facility stewardship and ensuring maximum efficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers communicate together to improve the efficiency and excellence of their products while minimizing expenses. The new value engineering program combines modern product development and offers superior customer support and service within the industry.
